### **What a difference a year makes!**

Spring is in the air, and a feeling of optimism is running through our campuses. Both our school sites are full of laughter and learning with the return of more students and our full expansion to in-person learning. To say this year has been extraordinary is an understatement. But through all the adversity, the learning, and the juggling of instructional models, our teams at AchieveKids has thrived.

We opened our doors to in-person learning in June 2020, almost one year ago, well in advance of most other schools in California. A year ago there was so much unknown, and the incredible team at AchieveKids rose to the challenge and faced the uncertainty head on to enable our opening, and to ensure we were supporting our students. That hard work and dedication resulted in our ability to work directly with many of our students throughout the school year, and laid the foundation to our being able to ensure safe campuses and active engagement now.

The support of our greater community and the confidence our supporters showed through investing in us helped us offer security to our dedicated workforce, and enabled us to focus on both ensuring our campuses were safe and that we were meeting the complex needs of our students. This past year demonstrates how a community can rise to a challenge for the greater good. Thank you to everyone in our community that enabled us to meet the many challenges presented to us this past year.

Together We Can Achieve.

Ryan C. Eisenberg  
Executive Director
