Districts and SELPAs

As you are aware the Counties Of Santa Clara and San Mateo, in partnership with five other county Offices of Education and Public Health, have announced the extension of school closures. Given the guidance, AchieveKids school campuses will remain closed until May 1st, and we will continue implementing our plan for distance learning. Our calendar will be the following:

- Present to April 3rd: Distance Learning
- April 6th through April 10th: Our scheduled spring break. During this time our buildings will not have office hours, and our employees will be off
- April 13th through May 1st: Distance Learning
- May 4th: Scheduled return to campuses

If you have any questions related to our closure dates, please let us know. During these closures we will continue implementation of distance learning as sent out in prior letters and notifications. We will continue to follow County guidance as we navigate this crisis, and will continue partnering with each of you to meet the needs of our students as appropriate. Additionally, if you have any questions, or need any support beyond the students we directly serve, do not hesitate to reach out, we are here to help our communities as best we can during this time of need.

Thank you and stay safe,

Ryan C. Eisenberg, Ed.D.
Executive Director
